Frontend Developer Intern - Task Assignment

Congratulations on getting shortlisted to the **assignment round**. In this round, you will be given a figma link. That will contain a few design screens (mocks). You are supposed to create a **ReactJs/Next.Js** project and develop the screens in that. If you are not aware of Figma then we recommend you to check that out first. As figma has a lot of components that can help you speed up development, like the margins, padding or even entire css directions. All the required dimensions and assets can be found in Figma itself. You are free to make assumptions wherever required, but please state your assumptions clearly.

How you will be assessed -

1. 50% weightage - Bringing the exact design out by your code
2. 50% weightage - Following coding principles and optimised coding

Naming convention of file: Your full name

Submission Method: Host your project files on Vercel, Netlify, or Githb. By hosting your project, we can easily access and assess your work. Submit the hosted link to your project file in the form. <https://forms.gle/mFuQv2MWkSj73PGQA>

Your Assignment:

https://drive.google.com/file/d/1ojo01uCHV1IVERVikSfk25-BurQCSXnE/view?usp=share_link

Submission Deadline: 6 days duration required

NOTE: DO NOT MAKE USE OF AI. DO NOT PASTE THE IMAGES DIRECTLY. USE PLAIN CSS TO MAKE THE DESIGN. NON-COMPLIANCE OF THESE PARTICULAR THINGS WILL DIRECTLY LEAD TO THE REJECTION OF YOUR APPLICATION

If you have any queries or doubts, feel free to reach us at - hr@leanplatformtechnologies.com

Frontend Developer

You are someone who is highly passionate about technology, a mad problem solver, driven towards best user experience.
